PROFESSIONAL SUMMARY

I am a hardworking, thorough, mathematics enthusiast. I live to solve problems, and puzzles, and challenge my brain to tackle issues from every direction I can. In my years of experience in mathematics and my time in coding, I have never found anything as satisfying or fulfilling as working hard for hours on something until it clicks into place. Applying this to teaching, be it teaching someone else to do a flip, or solve an integral, that moment of clarity for the student is incredible to watch. Due to my experience as a coach and tutor I've learned to communicate well as I'm usually the same age as my students. I'm fluent in Javascript, CSS, HTML, JQuery, and ES6 as of now, and I'm looking to add a lot more languages to that list.

SKILLS

- Coding in: Javascript, CSS , HTML, JQuery, ES6
- Logical Problem Solving
- Nutritional education
- Exercise planning
- Athlete safety
- Safety awareness
- Sports injuries training
- Problem resolution
- Communications

WORK HISTORY

Parkour Coach | The Cave Marin - Corte Madera, CA 10/2020 - CURRENT

I am currently a substitute parkour coach, coming in whenever a regular coach can't make it. I teach the kids parkour, and practice special precautions to prevent the spread of covid-19.

Kid's Gym Supervisor | San Anselmo Rec Center - San Anselmo, CA 01/2017 - 01/2020

I made sure kids didn't hurt themselves when using the equipment or playing with each other, as well as coached them for tumbling or parkour if they wanted to learn. I enforced the rules of the gym to ensure everyone's safety. I maintained an excellent attendance record.

EDUCATION

University Of Colorado At Boulder, Boulder, CO EXPECTED IN 06/2023
Associate of Science: Mathematics

High School Diploma:
